

LED Closet Lighting System For Hanging Bars

Description: An integrated LED lighting system embedded within your closet's hanging bars. Engineered with high-CRI LEDs, it provides uniform, consistent illumination across hanging garments, enhancing colour accuracy and making it easier to distinguish fabrics, coordinate outfits, and select the perfect attire for any occasion. Each system is custom manufactured to the exact dimensions and specifications of your project, ensuring a precise fit and exceptional performance.

DIMENSIONS (in MM)

Features:

- ◆ Light Source: **High CRI LED strip**
- ◆ Designed to enhance the **visual appeal and functionality** of your closet by **illuminating hanging garments**, creating a brighter, more inviting, and well-organized space
- ◆ Maximum load capacity: 30 kg per metre; for longer spans, the maximum load capacity is reduced and the use of additional hanging brackets is recommended
- ◆ **Solid state** connections eliminate the risk of electrical contact oxidation over time
- ◆ **IP20 rated**, suitable for indoor applications only
- ◆ Controlled by **low-voltage motion sensors or micro switches** for convenient, automated lighting control
- ◆ **Correlated color temperature options** are provided as indicated in the chart below
- ◆ All system components carry certification markings for the North American market

Model

DCHB

Correlated Colour Temperature (CCT)

☐ 2700K

☐ 3000K

☐ 3500K

☐ 4000K

System Controlled by:

☐

Motion Sensor

☐

Micro Switch

Power consumption

4.5 W/ft
