

LED Closet Lighting System For Shelves or General Lighting

Description: An LED Lighting system designed to illuminate shelves and provide general lighting for closets. Engineered with high-CRI LEDs, it delivers uniform, consistent light across closet shelves, making it easier to distinguish colors and select the perfect outfit for the day. Each system is custom manufactured to the exact dimensions and specifications of your project, ensuring a precise fit and exceptional performance.

Features:

- ◆ Light Source: **High CRI LED strip**
- ◆ Designed to **enhance the visual appeal of your closet by increasing illumination** throughout the shelving areas, creating a brighter, more functional, and inviting space
- ◆ **Solid state** connections eliminate the risk of electrical contact oxidation over time
- ◆ **IP20 rated**, suitable for indoor applications only
- ◆ Suitable for **surface-mounted installation**
- ◆ Controlled by **low-voltage motion sensors or micro switches** for convenient, automated lighting control
- ◆ **Correlated color temperature options** are provided as indicated in the chart below
- ◆ All system components carry certification markings for the North American market

Model

DCSG

Correlated Colour Temperature (CCT)

☐ 2700K

☐ 3000K

☐ 3500K

☐ 4000K

System Controlled by: ☐ Motion Sensor ☐ Micro Switch

Power consumption

4.5 W/ft
