

Description: A custom plug-and-play LED Under-cabinet lighting system designed to your specific configuration. Surface-installed and built with solid state connections for increased durability. Manufactured in Canada to your exact measurements and specification.

Features:

- Light source: monochromatic, white tunable, RGB or RGB + white tunable
- Plug-and play system designed to significantly reduce installation time spent by contractors on site
- Solid state connections eliminate the risk of electrical contact oxidation over time
- Suitable for surface installation
- The standard finish color is aluminum (gray). Custom colors are available at an additional cost; please provide the desired RAL code
- Correlated color temperature (CCT) options for the light source are available, as shown in the chart below
- IP20 rated, suitable for indoor applications only
- All system components carry certification marking for the North American market

Model	Correlated Colour Temperature (CCT)				
DUCL-S	☐ 2700K	☐ 3000K	☐ 3500K	☐ White tunable 2700K to 6000K	
	☐ 4000K	☐ 6000K	☐ RGB	☐ RGB + White Tunable	
Power consumption		Dimming option		Motion sensor controlled	
4.5 W/ft		☐ Dimmable		☐ Yes	
		☐ Non-dimmable		☐ No	

Please provide a sketch showing the configuration of your under-cabinet lighting system.
